

Model: **BOB s ESD**

Protection Class:

S3S FO SR CI

Article: **SN10234**

EU Regulations:

EN ISO 20345:2022

DESCRIPTION

High-top safety shoes with highly scuff-resistant Putek Plus upper.

The WingTex inner lining is an air tunnel, with special micro cells which absorb and wick away moisture, ensuring excellent breathability and long-lasting comfort.

Anti-static, non-slip and oil-resistant footwear, suitable for work on slippery surfaces or in contact with oil. The sole is made of PU/PU Light Grip.

The WOW footbed cover is designed to ensure greater comfort and a sensation of prolonged well-being, with self-modelling properties which distribute the body weight evenly over the entire sole of the foot.

Toe safety is guaranteed by the AirToe Aluminium toe cap and Save&Flex Plus anti-puncture system, the innovative light, flexible and safe “no metal” anti-puncture insole, sewn directly onto the upper which ensure protection of the entire foot surface.

The ideal safety shoes for workers, such as warehouse workers, brick layers, joiners, plumbers, gardeners, farmworkers, tyre specialists, mechanics, electricians, and in the logistics and transport sector.
