

Model: **CLYDE UK**

Protection Class:

S3 HRO HI SRC CI

Article: **UM10373**

EU Regulations:

EN ISO 20345:2022

DESCRIPTION

This model of ankle-high safety shoes offers excellent sole insulation from heat and cold and is a work footwear model suitable for work environments exposed to special temperature conditions such as in steel plants, in mines, in oil refineries and in all cold-weather settings.

Safety shoes with soft water repellent nubuck leather upper and polyurethane toe cap.

Work shoes with ultralight AirToe® toe cap and 100% fabric anti-perforation system consisting of a metal-free insole sewn directly onto the upper to ensure total protection of the sole of the foot.

Foot health and wellness are ensured by WOW Gel, a breathable and anatomical antibacterial insole which protects from small bumps and pressures, and WingTex®, a highly breathable air tunnel lining.

The sole is made of PU/Vibram and is non-slip, oil-repellent and abrasion-resistant.

UPPER
