

Model: FANTOM s ESD

Protection Class: S3S FO SR CI

Article: RN10074

EU Regulations: EN ISO 20345:2022

DESCRIPTION

Safety shoes characterised by an innovative design in which high quality materials combine to create design work shoes, that are both safe and comfortable to wear every day.

Fantom are high-cut safety shoes with high tenacity PUTEK® CAP upper, water-repellent and breathable with polyurethane reinforcement toe cover and lining in soft white calfskin that extends from the toes to the heel and wraps around the foot like a sock.

These non-slip safety shoes are extremely comfortable for the foot because they are equipped with an anatomical, antibacterial and breathable U-Power Original insole in soft leather and Infinergy® system for an optimal return of energy of more than 55% with each step, increasing comfort and well-being every day.

CI protection for insulation against the cold of the sole of the shoes.

Safety shoes with an attractive design that guarantee maximum safety and protection thanks to the AirToe Aluminium toe cap that protects the toes and the forefoot.

The Save & Flex PLUS anti-puncture system is completely no-metal and consists of an anti-puncture insole that ensures total protection of the entire sole of the foot as it is stitched directly to the upper.
