

Model: **GARY s ESD**

Protection Class: **S1PS FO SR**

Article: **RV30336**

EU Regulations: **EN ISO 20345:2022**

DESCRIPTION

Gary is a men's work sandal that responds to the needs of lightness and comfort without forgetting the need to always ensure maximum protection.

Super light work sandals with upper in microfibre with the water-repellent Nabuk effect.

Ultralight work shoes with Wingtex lining with breathable air tunnel that ensures an ideal microclimate in that it absorbs and disperses moisture thanks to its special microcells.

Comfort is increased by the Original U-Power anatomic insole in soft polyurethane, breathable and antibacterial for a sensation of durable and prolonged wellness.

The safety is the same as always: AirToe Aluminium toe cap to protect the toes and front part of the foot and ultralight Save&Flex Air anti-puncture system that ensures maximum protection of the entire sole of the foot, being an anti-puncture insole sewn directly to the upper.

A further innovation of these men's and women's work sandals is provided by the anti-slip and anti-static sole in new generation PU blend.

The Gary work sandal is ideal for craftsmen and women, electricians, carpenters, warehouse, transport and logistics workers.
