

Model: IRVIN

Protection Class:

S1P SRC ESD

Article: RN20036

EU Regulations:

EN ISO 20345:2011

DESCRIPTION

Irvin are safety shoes made from innovative materials that enhance their amazing Made in Italy design. Safety and protection are combined in a modern and innovative design.

Low-cut comfortable safety shoes in S1P SRC ESD standard protection with breathable nylon upper with polyurethane reinforcement scuff cap and soft white calfskin lining that extends from the toes to the heel providing excellent comfort and well-being and wrapping around the foot like a sock.

Comfort is enhanced by the Infinergy® system, which guarantees an energy return of more than 55% at every step, ideal for those who do dynamic work. Greater safety and stability thanks to the non-slip feature.

Irvin provides full protection to the toes and the forefoot thanks to the AirToe Aluminium toe cap while the fully textile Save & Flex PLUS anti-puncture system ensures total protection of the entire sole of the foot as it is stitched directly to the upper.

Safety shoes equipped with U-Power Original anatomical insole in soft, breathable and antibacterial leather.
