

Model: **LICHFIELD UK** UK STOCK ONLY

Article: **0RL1E284**

Protection Class: **S3 WR SRC CI**

EU Regulations: **EN ISO 20345:2022**

DESCRIPTION

Lichfield UK is a model of water repellent safety shoes with a full-grain leather upper and lining in GORE-TEX Performance membrane to guarantee maximum protection against damp and water infiltration.

This model of safety boots guarantees protection of the sole against cold and ensures the ideal microclimate to keep your feet healthy and dry.

Gore tex safety shoes and lightweight AirToe® Aluminium toe cap protecting the toes. The Save & Flex Plus anti-puncture system, which is totally "Metal Free", guarantees 100% surface protection of the sole of the foot.

Highly protective gore tex safety boots, suitable for damp places, with Infinergy® insert which ensures energy and vitality with a return of over 55% of energy at every step.

Compact, non-slip, antistatic and oil resistant PU sole.

Comfort is ensured by the anatomic, antibacterial and breathable WOW GEL footbed which alleviates minor impacts and pressure.

Safety footwear suitable for working in cold, damp environments and especially for the sectors, such as: steel, assembly and mining.
