

**Model:** **MARS s ESD**

**Protection Class:**

**S1PS FO SR**

**Article:** **RK20046**

**EU Regulations:**

**EN ISO 20345:2022**

## DESCRIPTION

Lightweight, breathable safety shoes with perforated soft suede upper and Mesh inserts for increased breathability, ideal in dry environments and for warmer seasons.

Composite, lightweight toecap and reinforcement tip polyurethane on front part of foot for increased protection and shoe durability.

Comfortable work shoes with ultra-breathable WingTex air tunnel lining and anti-scut, non-slip, antibacterial and highly breathable insole that ensures dry feet at all times.

Mars is a safety footwear style that is fully "Metal Free" suitable for both women and men, ideal for different areas of use, such as electricians and craftsmen, carpenters, warehouse workers, the logistics and haulage, mechanical engineering industry, automotive, and paper mill sectors.

The safety of the foot is guaranteed by the Save & Flex Plus anti-perforation system sewn directly into the upper to ensure protection of the entire surface of the sole.

Anti-static safety shoes with compact PU non-slip, oil-resistant and abrasion-resistant sole.

### UPPER
