

**Model:** MICHELLE s ESD

**Protection Class:** EN ISO 20345:2022

**Article:** RV20086

**EU Regulations:** EN ISO 20345:2022

## DESCRIPTION

Lightweight women's safety shoes with ultra-breathable nylon upper and pink contrast-colour side bands. Abrasion-resistant scuff cap to protect the tip.

U-Power Original insole in light and breathable polyurethane compound for a feeling of maximum comfort. WingTex air tunnel lining with special microcells for the absorption and dispersion of moisture.

These women's safety shoes use new materials that drastically reduce their weight, ensuring lightness not only in the perception of heat but also in movement.

The super light tread, with a new generation PU compound and the new puncture-resistant insole, and the AirToe Aluminium toecap ensure protection during use, while keeping the shoe extremely light.

Women's safety shoes suitable for dry environments and, more specifically for warehouse workers, trucking and logistics, carpenters, electricians and craftsmen in general.

### UPPER

Breathable nylon and abrasion-resistant scuff cap to protect the toe

### LINING

Wingtex® with breathable air tunnel

### SAFETY TOE CAP

AirToe Aluminium

### PIERCE-RESISTANCE

Save & Flex Air
