

Model: MOKI **Protection Class:** S1P SRC ESD
Article: RN20056 **EU Regulations:** EN ISO 20345:2011

DESCRIPTION

Safety shoes made from innovative materials to suit everyone's tastes as well as to meet safety and comfort requirements.

Moki are S1P SRC ESD safety shoes with ultra-breathable mesh upper with soft suede microfibre inserts and polyurethane reinforcement toe cap. The soft white calfskin lining extends from the toes to the heel wrapping around the foot like a sock and providing excellent comfort and well-being.

The Infinergy® system guarantees an energy return of more than 55% with each step, increasing comfort and well-being every day. Greater safety and stability thanks to the non-slip feature.

Moki are safety shoes with the U-Power Original anatomical insole in soft, breathable and antibacterial leather and the AirToe Aluminium toe cap for complete protection of the toes and forefoot. On the other hand, the Save & Flex PLUS no-metal anti-puncture system ensures the full protection of the entire sole of the foot as it is stitched directly to the upper.
