

**Model:** **MONTANA UK s ESD**

**Protection Class:**

**S3S FO SR CI**

**Article:** **RI11554**

**EU Regulations:**

**EN ISO 20345:2022**

## DESCRIPTION

Safety shoes ideal for rainy days thanks to the soft, breathable, water-repellent, pull-up leather upper.

Montana UK is a work shoe with a lightweight Air Toe composite toe cap which ensures maximum protection of the toes and front part of the foot.

Foot safety is increased by the Save&Flex® PLUS anti-perforation system consisting of a totally “metal-free” anti-perforation insole which protects the entire sole of the foot because it is sewn directly onto the upper.

Montana UK is also a very comfortable work shoe that ensures maximum comfort thanks to the WOW2 anti-fatigue insole, designed to guaranteed balance and the distribution of shocks at work.

The sole of this high-top safety shoe is made of abrasion resistant, oil resistant, non-slip, and anti-static PU/PU.

Lastly, it features specific protection to insulate the bottom of the shoe from the cold, certified with CI standard protection.
