

Model: **MONTANA UK**

Protection Class: **S3 SRC CI ESD**

Article: **RI11554**

EU Regulations: **EN ISO 20345:2011**

DESCRIPTION

S3 safety shoes ideal for rainy days thanks to the soft, breathable, water-repellent, pull-up leather upper. Montana UK is a work shoe with S3 SRC CI ESD standard protection and a lightweight Air Toe composite toe cap which ensures maximum protection of the toes and front part of the foot. Foot safety is increased by the Save&Flex® PLUS anti-perforation system consisting of a totally “metal-free” anti-perforation insole which protects the entire sole of the foot because it is sewn directly onto the upper. Montana UK is also a very comfortable work shoe that ensures maximum comfort thanks to the WOW2 anti-fatigue insole, designed to guaranteed balance and the distribution of shocks at work. The sole of this high-top safety shoe is made of abrasion resistant, oil resistant, non-slip, and anti-static PU/PU. Lastly, it features specific protection to insulate the bottom of the shoe from the cold, certified with CI standard protection.
