

Model: **MORRISON s ESD**

Protection Class: **S3S FO SR CI**

Article: **RK10104**

EU Regulations: **EN ISO 20345:2022**

DESCRIPTION

High-top, highly anti-scut safety work shoes with polyurethane reinforcement tip. Putek Plus upper and ultra-breathable WingTex air tunnel lining for long-lasting well-being.

Non-slip shoe with compact PU outsole and oil-resistant, abrasion-resistant and anti-static sole.

Morrison is a fully "Metal Free" safety shoe style with a composite toecap and Save & Flex Plus anti-perforation system sewn directly into the upper for 100% protection of the surface of the foot.

Safety shoes with cold weather protection of the sole (for temp. $\leq 10^{\circ}\text{C}.$) which makes them ideal for cold, damp environments, especially for mechanical engineering, the haulage and logistics sector, paper mill workers, electricians, carpenters, craftsmen generally, warehouse workers and the automotive sector.

Comfort and well-being are guaranteed by the New ErgoDry insole designed to follow the contours of the foot, which is also washable, breathable, anti-scut, non-slip, anti-bacterial and anti-static.

Men's and women's work footwear.
