

Model: RAJAS

Protection Class: S3 SRC CI ESD

Article: RI20064

EU Regulations: EN ISO 20345:2011

DESCRIPTION

Low-cut and lightweight work shoes with anti-fatigue insert for greater and long-lasting comfort. The WOW2 insole allows, thanks to its self-modelling arched insole structure on which the anti-fatigue insert is positioned, to obtain a reduction in body stress and to improve stability and balance, guaranteeing a remarkable perception of well-being throughout the working day.

Water repellent safety shoes with upper in soft tumbled natural nubuck leather and Airtoe composite toe cap.

This style is equipped with the completely “Metal Free” Save & Flex Plus anti-perforation system for total safety against the risk of the sole being perforated by nails or splinters.

Anti-slip, anti-static, oil-resistant, abrasion-resistant work shoes with special protection from the cold (at temp. ≤ 10 °C.). Highly breathable work shoes thanks to the air tunnel inner lining.

Rajas is a style of work footwear ideal for farmers and gardeners, transport and logistics, mechanics, tyre repairers, process workers, electricians, plumbers, carpenters, painters, craftsmen and gas station operators.
