

**Model:** **RONAN s**

**Article:** **0RL10514**

**Protection Class:** **S3S HRO HI FO SR CI**

**EU Regulations:** **EN ISO 20345:2011 CE**

## DESCRIPTION

Safety footwear with the sole of the shoe specially insulated against heat and cold.

Water repellent work shoe with upper in soft, Pull-up leather and double lace. The model is made even more hard-wearing with the PU-reinforced scuff cap.

The sole in PU/Vibram increases grip and traction, whilst the Infinergy® insert ensures that energy is recovered. Anti-static, anti-slip, abrasion resistant and oil resistant sole, particularly suited for use on uneven ground and treacherous surfaces.

These high-cut safety shoes guarantee 100% protection to the surface of the foot thanks to the Save & Flex® PLUS, completely "Metal Free", anti-puncture sole and the lightweight aluminium AirToe toe cap.

Ronan is a protective shoe with an ultra-breathable WingTex air tunnel lining that ensures prolonged comfort thanks to the anti-bacterial, anatomical WOW insole.

Footwear for work, suitable for outdoor use in wet and cold environments: shoes for construction workers and builders, people working in agriculture, gardening, building works, road works and maintenance, installations, port areas.
