

Model: SCOTT'S ESD Protection Class: S1PS FO SR

Article: RV20116 EU Regulations: EN ISO 20345:2022

DESCRIPTION

Low-heeled safety shoes with ultra-breathable nylon upper and abrasion-resistant scuff cap on the toe, with tone-on-tone effect.

Ultra-light safety shoes that feature an innovative tread obtained with a new generation PU compound, and a brand new puncture-resistant textile insole to protect the sole of the foot, both super light and which greatly reduce the overall weight of the shoe without compromising safety and comfort.

Non-slip footwear with anti-static, oil-resistant and abrasion-resistant sole. AirToe Aluminium toecap, self-modelling, anatomical and antibacterial insole and WingTex air tunnel lining that ensures moisture absorption and dispersion. Summer safety footwear, suitable for both men and women, ideal for use in a dry environment and, in particular for: warehouse workers, transport and logistics sectors, carpenters, electricians and craftsmen in general.

UPPER	LINING	SAFETY TOE CAP
