

Model:	TIM	Protection Class:	S3 SRC CI ESD
Article:	RL20534	EU Regulations:	EN ISO 20345:2011 CE

DESCRIPTION

Anti-static safety shoes in protection class S3 CI SRC ESD with anti-slip, oil resistant, abrasion resistant and “Metal Free” anti-puncture sole in PU/PU. The Save & Flex® PLUS anti-puncture system is stitched directly onto the upper and provides protection to 100% of the surface of the foot.

These comfortable, soft shoes feature a water repellent, hard-wearing, Pull-up leather upper with Kevlar® DuPont™ stitching and double lace.

Safety is ensured by the AirToe Aluminium toe cap and the tread offers high grip and stability of posture. The PU-reinforced scuff cap increases the footwear’s resistance and strength.

Work shoes with high energy recovery thanks to the Infinergy® system which ensures that over 55% of the energy is returned with each step, ideal for people with dynamic jobs in cold and wet environments, especially suitable for construction and building sites, port areas, road maintenance and road works, installations, and for work in agriculture and gardens.

Well-being and comfort are guaranteed by the innovative breathable, anti-bacterial, anatomical WOW insole and by the ultra-breathable WingTex air tunnel lining.

UPPER

Water repellent, Pull-up leather

LINING
