

Model:	TONY	Protection Class:	S1P SRC ESD
Article:	RV20126	EU Regulations:	EN ISO 20345:2011

DESCRIPTION

Breathable and ultralight safety shoes with fresh and super breathable, soft suede Airnet® upper. U-Power has reduced the weight of these safety shoes thanks to the use of a new generation particularly light PU compound, used for the tread - no-slip, abrasion-resistant, anti-static and oil-resistant - which, combined with the new ultralight puncture-resistant insole and the AirToe toecap, made it possible to halve the overall weight of the shoe. These light and breathable safety shoes are ideal for the warmer months and guarantee protection and safety without compromising comfort. The U-Power Original insole - an anatomic insole in light polyurethane compound - and the WingTex air tunnel lining ensure comfort and health of the foot. S1P SRC ESD protection class safety shoes suitable for dry environments and, in particular, for hauliers, logistics, warehouse workers, carpenters, electricians and craftsmen in general.

UPPER

Ultra-breathable AIRNET and soft suede upper

LINING

Wingtex® with breathable air tunnel

SAFETY TOE CAP

AirToe Aluminium

PIERCE-RESISTANCE

Save & Flex Air

FOOTBED

U-Power Original

INTERSOLE

Soft, expanded PU

SOLE

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

FIT

Natural Confort 11 Mondopoint

SIZE

35-48 (UK: 2-13)
