

**Model:** TYLER

**Protection Class:** S3 SRC CI ESD

**Article:** RV10304

**EU Regulations:** EN ISO 20345:2011

### DESCRIPTION

Lightweight hi-top safety footwear with AirToe toe cap made of aluminium. Water-repellent upper made of soft Nubuck-effect microfibre.

The use of the innovative, latest-generation PU mix sole for these safety shoes results in a significant overall reduction in weight of the footwear for improved performance and comfort during the working day.

Lighter safety shoes thanks also to the use of the all-fabric Save & Flex Air anti-perforation system and the U-Power Original anatomic insole with self-modelling and antibacterial properties.

S3 CI SRC ESD hi-top safety shoes with special protection of the sole from the cold (At temp.  $\leq 10$  °C.) which makes this style suitable in all work situations with frequent exposure to low temperatures and in damp environments, such as transport & logistics, for use by warehouse workers, plumbers, and electricians, etc.

Men and women's non-slip shoes with anti-abrasion, anti-oil and antistatic sole and WingTex air tunnel ultra-breathable lining.
